BUDDY'S TIPS RECIPES

Fondant

1. You can purchase fondant at your local craft or cake supply store.
2. Knead and soften the fondant.
3. Using a rolling pin, roll out to approximately 1/8" thickness (use a little cornstarch to prevent sticking).
4. Drape icing over pre-frosted cake and adhere to top and sides.
5. Using a pizza wheel, trim the icing along the base layer of the cake.
